

COSMETIC INGREDIENTS

Tradin Organic supplies a full range of 100% certified organic, high-quality oils and fats that are suitable for cosmetic products.

Specialty Oils

Tradin Organic offers an extensive selection of specialty organic vegetable oils, including avocado oil, perilla oil and evening primrose oil. Aside from being a great source of various vitamins, these oils also contain Gamma-Linolenic Acid (GLA) as their active component which are well-suited for a variety of cosmetic applications.

Tropical Oils and Fats

We offer multiple types of certified organic coconut oils from our projects in the Philippines and Indonesia, such as cold-pressed virgin and refined coconut oil. Virgin coconut oils are rich in flavour and smell of fresh coconuts, whereas refined oils are neutral in both flavour and odour.

We produce organic cocoa butter in our own processing facility in The Netherlands. In addition, we supply organic palm oil, palm fractions and organic shea butter.

Own Avocado Oil Project – Ethiopia

In 2018, we launched our organic avocado oil project in Ethiopia. Organic avocado oil is one of nature's finest vegetable oils, known for its exceptional moisturizing properties and high content of vitamin E and monounsaturated fats. This makes it an ideal ingredient for a wide range of hair and skincare products. Extra virgin avocado oil is also a versatile ingredient for various food and cosmetic applications.

COSMETIC INGREDIENTS

We offer a combination of innovative organic cosmetic ingredients, competitive pricing and efficient service. Contact us for more information on our products and projects.
