

# PET FOOD INDUSTRY

Tradin Organic provides 100% certified organic, high-quality ingredients suitable for pet food in various formulations, including canned, dry, and semi-moist options.

## Global Sourcing

With over 40 years of experience and sourcing from over 70 countries, our global network and presence at origin ensure a stable and consistent supply.

We heavily invest in expanding and further improving our growing global network of certified organic suppliers. Our worldwide sourcing initiatives receive tailored agronomical support and investments in processing facilities and food safety procedures.

## Organic Integrity & Quality Management

A direct sourcing model and in-house quality monitoring are key elements in ensuring organic integrity and product quality all the way from farm to your door.

Food safety and quality programs led by our dedicated Quality Assurance team closely monitor all links of the supply chain to guarantee the safety and integrity of our products.

## Service

Our extensive storage capabilities enable us to ensure just-in-time deliveries. We provide contract management, payment terms, and strategic advice regarding market and price developments to empower our customers in making well-timed and informed purchasing decisions.

# PET FOOD INDUSTRY

## Sustainability & Traceability

Our purpose is to cultivate a regenerative food system that goes beyond organic. We want to offer ingredients from sources where every plant and person involved is better off because of it.

We work with our extensive network of carefully screened, long-term independent suppliers to ensure a steady supply of only the highest quality products.

With our boots on the ground, we maintain close relationships with farmers and local partners, providing ethically sourced organic ingredients with full traceability.
